FULL TURNKEY PLAN – DESIGN – PROJECT MANAGEMENT SERVICES

We understand that medical professionals looking to build or refit their businesses need to remain focused on assisting their patients and may just not find the time to look at plans for new premises or upgrades to premises and equipment. We offer a uniquely smooth and comprehensive service in WA for you.

We have a longstanding history of providing turnkey commercial projects to clients, including delivering health and veterinary projects in New Zealand and Australia.

Dentifit Australia was founded in 2005 offering a specialised and tailored services for the design and fit out of dental, medical and veterinary practices, naming themselves Dentifit Australia. Their highly-skilled design team has collaborated with many medical practices and healthcare facilities, delivering customised solutions for their treatment spaces.

DENTAL & MEDICAL SHOP FITTERS

Dentifit
DESIGN. CONSTRUCT. FURNISH.

We work with you and your team to understand your business functionality and to provide a bespoke, functional and cost effective solution for your planned project.

We interrogate your current business assets and programme the works in harmony with your operational requirements, if for example equipment needs to be relocated.

We can research new Greenfield land opportunities for any scale of project, and assist you with the entire planning and Development Application process, if required too.
